

MOONBASE EXPLORERS

FOR GRADES K-2

The Moonbase Explorers program offers an immersive STEM experience for the youngest scientists. Students will explore the requirements for building and maintaining a lunar off-planet settlements as they encounter test tubes, x-rays, magnets, robots and more in our Apollo Room and Science Laboratory. The highlight of the program is the Crater Excavation, where students don astronaut gear and head onto the simulated Lunar Surface!

This program aligns with both state and national standards and addresses content in the following areas and more:

- PREDICTION, OBSERVATION AND INVESTIGATION
- MOTION, MAGNETISM AND MEASUREMENT
- CHOOSING TOOLS AND SORTING SAMPLES
- ENGINEERING DESIGN AND TESTING

DURATION: 2 HOURS 30 MINUTES

PRICE: \$300 FOR UP TO 24 STUDENTS, \$10 PER ADDITIONAL STUDENT UP TO 48 (MAX.)

ADD A PLANETARIUM SHOW TO YOUR EXPERIENCE FOR ONLY \$50!
